

Arts Council Tokyo Traditional Culture Program

Nearly 110,000 attendees in total! Traditional Culture Experience Programs for Foreign Visitors with authentic and high-quality Japanese experiences

Arts Council Tokyo (Tokyo Metropolitan Foundation for History and Culture) will hold the "Tokyo Tokyo FESTIVAL" as part of its efforts to increase interest in Tokyo leading up toward 2020.

One of the programs, held under the theme, "Approaching Tokyo Tradition," provides foreign visitors and children with the chance to easily experience and enjoy traditional Japanese culture and entertainment.

Over 1000 programs have been held through Traditional Culture Experience Programs for foreign visitors, and nearly 110,000(*) participants have taken part since the program began in 2015. The programs held in Asakusa and the Edo-Tokyo Museum have been especially popular, and are held throughout the year.

Hanayagi Kiyohito, who teaches traditional Japanese dance in Asakusa as part of the Japanese Classical Dance Association's Tokyo Office Joto Block, said "I hope that people, especially those who are experiencing Japanese dance (Nihon buyo) for the first time, are able to experience the real thing first. I also hope that they are impressed and share their experience with family and friends." One excited first-time participant noted, "I have seen Japanese dance in pictures, but it was my first time seeing it in person. I was impressed by the beautiful, detailed movements."

Traditional Culture Experience Programs will be held on most weekends until the end of March (some exclusions apply). Please join us indoors for exciting traditional Japanese experiences during the cold winter months!

*As of September 2018

Arts Council Tokyo Traditional Culture Program

■ Comments from the Instructor

Hanayagi Kiyohito, The Japanese Classical Dance Association Inc. Tokyo Office, Joto Block Chief Instructor

<What makes the program popular?>

You can wear a yukata, dance to traditional music, or watch professional performers.

Many participants in the programs were excited to try on the yukata. We dress each participant properly, and I believe being able to see the beauty of the yukata in its proper form is another reason why they are popular.

In addition, Japanese dance workshop allows participants to experience the elegant gestures that go into the performance. Seeing the participants learn the dance from the basics, and smile after they were able to perform the moves to the song, is very exciting. Participants also seemed fascinated to be able to watch professionals perform a song after the program.

<About the activities>

Being able to experience authentic Japanese culture is very important.

As the interest in Japanese culture grows, more and more tourists are visiting our country each year. I think that providing an opportunity to take part in authentic Japanese cultural experiences is extremely important. Many tourists have taken part in our programs since we began 4 years ago. Seeing everyone's smiling faces, I believe that our program has makes tourists to gain an even deeper appreciation of Japanese culture. Working as an instructor makes me to realize the importance of providing an opportunity to take part in these authentic cultural experiences.
